

**Would you like your doctor, therapist,
social worker, or other healthcare
provider to know more about
HD?**

You can help steer your healthcare provider to an online program that will help them learn more about HD, while giving them FREE continuing medical or nursing credits! The more they know about HD, the better they'll be able to help persons with HD and their families.

This program was developed by the Huntington's Study Group (HSG), who are world experts in caring for individuals and families impacted by Huntington disease. HSG wants to share their knowledge with as many health care professionals as possible so families can more easily find care in their own communities. The popular CME4HD program provided at HSG's annual event is now available online, anytime, anywhere - for **FREE**. This program was planned and implemented by the North American Center for Continuing Education, LLC (NACCME) and the Huntington Study Group (HSG). This program was made possible, in part, by an independent educational grant from TEVA Pharmaceuticals.

The entire program provides 3.75 CME/CNE credits (with reciprocity for nurse practitioners) - for **FREE!**

We need your help to spread the word about CME4HD online in the medical community so that, ultimately, HD patients can receive better care in their own communities between subspecialty appointments.

Help HD Reach be the organization that refers the most healthcare providers that complete the course by June 30, 2018, so one of our patients or clients can go to the HSG meeting, HSG 2018: Unlocking HD in Houston for FREE! This includes airfare (up to \$500 domestic, \$1200 international), two nights in [Hotel ZaZa](#), and a travel stipend. Those who complete the program will also be eligible for a scholarship, chosen at random.

IF HD Reach wins, we'll randomly select one of our patients/clients to go to the meeting! It's easy! Just tell your providers about the FREE course and ask them to identify HD Reach as the referral source.

For more information, click [here](#). (Scroll to the bottom of the page for more details about the referral program.)
